Regional Execs.

NEW OFFICERS—Three out of the four new officers of the South Coast Region of the California Young Farmers are from the Cal Poly Chapter. (l to r) Leland Johnson, secretary-treasurer, Dick Chilson, reporter, Sonney Rianda, vice-president, (not a Poly student) Don Tompkins, president, and Gilbert Hutchings, adviser. Tompkins, senior Animal Husbandry major is from King City; Johnson, sophomore Mechanized Agriculture major is from Winters and Chilson, also an MA major is from Bantee. Rianda is from Gonzales.

Family Relations Instructor Gets Honored Title

Dr. Norman S. Gould, psychology instructor, has been awarded the title of "Certified Psychologist." To qualify for the title certain standards must be met such as training, experience, and moral character required by the new California Psychology Certification Act. The Act requires a doctor's degree from a recognized university and a year of supervised experience from candidates for certification. Candidates must also pass the written and oral examinations to receive the title of "Certified Psychologist."

Dr. Ben C. Finney, president of the California State Psychological Association, said the new law protects both the public and psychology profession. It enables a person seeking psychological aid to recognize the trained psychologist by the title "Certified Psychologist," and to avoid the self-styled "psychologist," who is either untrained or dishonest.

Endurance Run Set For February 15

February 15 has been set as the date of the ninth annual High Mountain Endurance Run. Sponsored by the Cal Poly Penguins motorcycle club, the run which draws riders throughout California, has earned a reputation for being one of the toughest enduro runs in the state. Motorcyclists test their riding skill over approximately 150 miles of all types of terrain from sand to rugged mountains. Last year of 70 starters, only 28 finished the course.

The American Motorcycle Association sanctioned event emphasizes good sportsmanship as well as good riding skill. Any A.M.A. member may enter. The entry fee is \$2.00 and application blanks may be secured from Mike Monroe, club president, or other club officers. Eleven trophies will be awarded among the following classes: novice, experienced, lightweight bikes, and women's.

Pres. McPhee Honored As 'Guest' of Poly Royal

By David Green
Poly Royal Publicity Director

By special student proclamation, President Julian A. McPhee was made "honored guest" of the 27th Annual Poly Royal, to be held April 24-25. Presentation of the proclamation, on behalf of the student body, was made by Ed McGrew, General Superintendent of Poly Royal and Carl G. Beck, Farm Management instructor, better known as the "father" of Poly Royal. The ceremony took place in President McPhee's office Friday.

This year's recognition of McPhee came as a result of his 25th anniversary as President of Cal Poly.

Poly Royal "honored guests" have traditionally been chosen from leaders in California educational or professional fields.

In part, the proclamation read, "Whereas, Dr. Julian A. McPhee has devoted 25 years to the cause of education and whereas the California State Polytechnic College under his leadership has grown to be internationally recognized for its philosophy of technical educa-

Shearing Will Play To Capacity Crowd

George Shearing and his quintet will play to a capacity Cal Poly audience tomorrow night in A.C. Aud. Starting time for the concert by the well known blind jazz pianist will be 8:15 p.m.

College Union assemblies committee reported ticket sales for Shearing have been a sell-out. Paul Sullivan, assemblies committee chairman, reported that such a hearty reception as that received for this concert will insure future events of such calibre at here.

Shearing, internationally famous for his jazz piano artistry, began his musical career in London England. Ten years ago he traveled to the United States, and after a slow start, Shearing soon rose to the heights of the jazz world.

Besides winning every trade and disk jockey poll of any significance in the United States, Shearing has been named number one pianist in a dozen countries, including Japan, Australia, Germany, France, and South Africa.

Campus Club Sends Representative To School Board

Richard Puterbaugh will serve on the Board of Control of the Chris Jaspersen School for handicapped children as a representative of Cal Poly's Industrial Engineering club.

Puterbaugh is president of the IE club.

This is the first time a campus organization here has had representation on the school board. The IE club was chosen because of its great interest and support of the school.

The Board of Control was set up six years ago to administrate the school funds in problems of building and maintenance. Members are drawn from the County Board of Education, the county Elementary School Principals Association, county Secondary School Principals Association, and two representatives of local civic organizations.

College Hour Will Feature Talk on African Safari

One of the most unusual programs to be featured at College Hour will be presented in the A.C. Aud. when Cecil G. "Spud" Evans will speak and show slides on his recent safari to darkest Africa.

"Evans is known throughout the community as a humorous as well as an informative speaker," reported Activities Advisor Kay Williams, who arranges for the College Hour programs in conjunction with the College Union assembly committee.

Evans, who spent this summer on an African safari with several San Luis Obispo businessmen, is known as a sportsman, big game hunter, and world traveler.

Evans owner of the Evans Brokerage Co. at 1118 Chorro, is advisor to Engineer's House. He is a past lieutenant governor of the Kiwanis district and also active in the American Cancer Society.

Lovett Reminds Students To Get Polio Shots Now

All students are again urged by Dr. Earl Lovett, head of the health center, to get their Polio shots.

The importance of this was noted when a Cal Poly student was recently stricken by Polio, says Dr. Lovett.

Upon completion of the series of shots a booster shot is recommended the following year and can be taken at the health center, from 8 A.M. to 5 P.M. Monday through Friday.

Gaucha Official Issues Statement on Accusation

University of California, Santa Barbara has announced they are accepting Cal Poly's explanation to Gaucha charges that the Mustangs used illegal protective equipment, namely a hard arm cast, against the Gauchos in a football game Nov. 21, 1958. In a statement issued Saturday morning by Dr.

Aviation Firm Man Interviews Seniors Today

Several Cal Poly alumni are now assisting in the development of new concepts in manned air and space vehicles according to the Los Angeles Division of North American Aviation. Work being done by the graduates range from design and research to flight testing.

Currently working on new phases of air and space research and development are the following alumni:

B. E. Snow, J. H. Allen, S. E. McGowan, R. S. Shafer, G. V. Johnson Jr., P. F. Dorn, A. J. Moon, R. H. Hing, S. M. Wolf, D. C. Shoudy II, and E. J. Cambra.

Donald S. Gray, N. A. A. engineering recruitment representative, is on campus today interviewing seniors in Air Conditioning, Aeronautics, Architecture, Electrical Engineering, Electronics, Mechanical Engineering, Math and Physical Science.

Students Teach In Local Schools

Dr. R. C. Collins, coordinator for student teaching on the secondary level, has placed nine student teachers in positions throughout the county for the winter quarter.

Assignments are in addition to Home Economics department students, whose names were announced in an earlier edition of El Mustang.

David W. Arnold is at Atascadero High School for a period a day, in the Social Science department. Heulan Brown, a Biological Science major, works three periods a day at San Luis Obispo Senior High School. At the same school is a Physical Science major, David H. Carlisle, also for three periods.

Another Biological Science major, Mrs. Dorothy Arnold Harrison, is assigned three periods to San Luis Obispo high school.

Physical Education majors were assigned as follows, to San Luis Obispo Junior high school: Donald R. Cavender, Richard Mannini, Robert Pawek, and Lawrence Stockton. Students spend three periods, either in the morning or afternoon at the high school.

Social Science major, Peter C. Lawrence, spends three periods at San Luis Obispo high school.

Photo Proofs Must Return Today by 5 p. m.

Seniors who picked up graduation picture proofs yesterday must return them to Cubicle O today, anytime from 9 a.m. to 5 p.m., says Ken Carpenter, El Rodeo editor.

"Any student who finds it impossible to return his proofs by 5 p.m. today should make an all-out effort to contact the photographer while he's still on campus, or prepare himself for a lot of red tape," Carpenter said.

Walter Muller, Chairman of a three-man UCSB faculty committee, he said, "We have just concluded an exhaustive investigation into the use of the alleged illegal protective device in the Nov. 21 game here. We find that all evidence in the case is circumstantial and we are not proceeding any further. We are accepting Cal Poly's version of the incident completely."

Coach LeRoy Hughes last week took an affidavit from Dr. Art James, team physician, to the UCSB chancellor explaining the hard arm cast was replaced before every game with a binding of sponge rubber and adhesive tape.

Muller said he and his committee including basketball coach Art Gailen and Dr. James Curry interviewed scores of people including game officials, Santa Barbara players and coaches and Cal Poly officials and find they have no evidence whatsoever to support any charge.

Muller indirectly blamed the student publication at Santa Barbara, El Gaucha, for playing up the story originally in their Jan. 8 issue. He said he thought it unfortunate in that there was no evidence then either that there was over any device used. Dr. Muller at that time had refused to give a statement. All information on the case had come out of Athletic Director Willie Wilton's office.

Some Santa Barbara officials stated earlier they wanted to drop the incident but Head Coach Ed Cody had put it on the agenda for the CCAA meeting in Santa Monica and then was not able to attend. Wilton went in place of Cody and had no evidence at the meeting on the reported illegal arm cast they claimed was used in the game. CCAA officials accepted Cal Poly's explanation at that time.

Game movies revealed that the injured Santa Barbara player, which UCSB officials said could have been caused by the cast, was cut by a falling Mustang.

Cal Poly Head Coach and Athletic Director LeRoy Hughes said the whole incident could have been cleared if Cody had merely asked him what the hard cast was doing in the dressing room and if the Mustangs had used it in the game. "I could have explained it to him and it could have been taken care of right there."

"About their statement," Hughes said, "I object to the word 'circumstantial'. It's factual, now."

Club Sets Sports Car Rally Here February 1

Attention all sport car owners! A navigational rally is scheduled for Sunday, Feb. 1. Starting time is 10 a.m. and drivers assembly time is set for 11:30 a.m. in the College Square Parking Lot, behind Barr's Drive-in.

A Le-Mans type start will be used, where timing starts when the driver runs to get into his car. The course will cover 180 miles of good road, according to Doug Tummond, rally master.

Trophies will be given for first place for cars having odometers in tenths and speedometers in miles, providing there are five or more cars entered in each class.

Trummond says the entry fee will be \$1, with no sign-ups necessary in advance.

Near Fall? .

HEADS UP—Referee Weber Lawson doesn't let a thing pass. If they don't wrestle where he can see 'em, he gets right down to where the action is. It gives him a better bite on the whistle, too. That's Dan Hopping, 187 pounds, pinning Dick Lindner of Long Beach in the dual match here Saturday. Cal Poly won 31-3. (Photo by Geiger)

Matmen Down Long Beach; Meet San Diego Thursday

Ready to make it 18 straight, Mustang matmen prepare for their second outing of the season against San Diego State in Crandall gym Thursday at 8 P.M. After two false starts, the Mustang grapplers have shifted into high gear following a 31-3 victory over Long Beach State here Saturday night.

The Long Beach meet, the Mustangs first of the season was hardly more than a workout for the defending PCI champs. University of Santa Clara and UCLA had already canceled dual meets earlier in the season.

The Mustangs had little trouble with the visiting 49ers, losing only one match. However, Darwin McGill, the loser, had won two matches earlier in the day in the Cal Poly Junior College wrestling tournament. McGill won the 177 pound class in the tourney.

The 49ers forfeited matches at 123 pounds, 187 and 191. In the opener, Lynn Dyche dropped a 4-3 decision to Leon Estes of Long Beach in an exhibition match. The pair wrestled at 191 pounds.

Harold Simonek tangled with Rudy Busmerovich, both of Cal Poly, in the second exhibition of the night. In a polished display Simonek decisively busmerovich 13-10.

The 147 pound match was also an exhibition. Cal Poly's Tom Hall and San Bernardino Junior College's Larry Morical. Hall pinned Morical in the third round.

Howard Bryant, Cal Poly, pinned Koh Kishiyama in the first dual competition match. The bout was at 150 pounds.

Newcomer Dan Hopping made short work of 49er Dick Lindner in the 187 pound match. Hopping pinned the visitor in 2:58 of the second round.

At 167, Poly's Bob Machado decisively Frank Harkin 10-0.

Two gridders took the mat at 177 as Long Beach's Don Davis barely squeaked by Darwin McGill 3-2.

Another pair of football players doubling as wrestlers finished the meet with defending PCI champion Pat Lovell decisively Dick Kellor, 5-4.

Swimming Mentor Has Plenty Aqua; Team Lacks Depth

Tutoring a team which he believes is better than last year's, Coach Dick Anderson is desperately looking for backstrokers to round out the 1959 Cal Poly swimming team. Last year the mermen won the State College Meet and lost only to Cal and USC in the dual meets.

"I don't mean that we don't have a backstroker, but we lack the depth that we have in all the other events," the swimming coach explains.

Anderson claims that backstroker Larry Cole is one of Cal Poly's finest, but is looking for more depth which is needed for winning points.

Gene Lens is an example of the coach's material. Last year he set records in 220, 440, and 800 yards individual medley at the State College Meet. He already held records in the 200 yards butterfly and the 1500 meter swim. In national competition, Lens placed third and fourth in the 1500 meter and 440 yards events.

The coach listed other standouts as breast stroker John Phillips, Darwin McGill, and returning letterman of 1957 Jim Olson and Don Smoot. Leigh Allen, 1955 and 56 State College Meet champ on the high and low boards, will lead the divers.

"There is still plenty of time for new swimmers to join the team," Anderson says. "The first outing isn't until Feb. 19, a practice meet against Fullerton JC."

Cagers Seek Revenge In Conference Re-match

by Dave Kempf
Athletic Publicist

A chance for revenge of Friday night's two point loss to Los Angeles State will be offered the Mustangs this Friday night when a league re-match is scheduled. Coach Ed Jorgensen's cagers will be looking for their first conference win and would like nothing better than to get it against the

Diablos who edged the locals on a field goal in the last three seconds of play last weekend.

Last Friday's tilt, one of the most thrilling in years, proved what the local roundballers can do. Facing one of the highest scoring teams in the nation, the Green and Gold shut their eyes to statistics and worried Coach Sax Elliot and his visiting Diablos silly.

Trailing 41-33 at halftime, it took just five minutes for the Jorgensenmen to pass the speedy visitors on the scoreboard. The Mustangs collected a four point lead and kept it until five minutes before the final buzzer.

The Diablos tied the score and matched the Mustangs basket for basket until three minutes later when Cal Poly again surged into the lead. But not to be denied, the Southerners tied the score with a minute to go as pandemonium rocked Crandall gym.

After an exchange of ball possession, tiny Los Angeles forward Eliseo Nino dropped in a 25 foot set shot with three seconds to go, leaving the Mustangs helpless.

Poly forward Joe Rycraw gave the locals life in the first half, breaking the scoring ice and controlling the backboards. Guard Vic DiGiovanni and center Bob Thetford gave the visitors more than they could handle in the scoring department, making 26 and 24 points, respectively.

DiGiovanni was a tiger on defense while Thetford played one of his best games in a Green and Gold uniform. The big center came through time after time on tip-ins with playmaker Rycraw setting up the scoring plays and also doing his share of putting the saphers through the hoop.

Scoring: Los Angeles: Nino, 15; Ferber, 10; Baudier, 17; Hill, 20; Keyner, 7; Oldham, 11; Shalt, 8; Total, 87. Cal Poly: Clark, 21; Shackelford, 21; Ashby, 4; McCormick, 10; Rycraw, 17; Thetford, 24; DiGiovanni, 26.

Entry Blanks Due For Inter-Class Swimming Meet

"Students planning to enter the Inter-Class Swimming Meet should get entry blanks in right away," says Coach Dick Anderson. "Blanks will be distributed to all dorms besides being available in the gym."

Anyone who has not lettered in swimming at Poly is eligible, but will be limited to three events. The events will be: 200 yds. medley relay (4 men—50 yds. each), 200 yds. free style, 50 yds. free style, 100 yds. individual medley, low board diving (5 dives: 1 compulsory, 4 optional), 100 yds. free style, 50 yds. breast stroke, 50 yds. back stroke, 50 yds. dolphin butterfly breast stroke, 200 yds. free style relay (4 men—50 yds. each).

The pool will be open for practice Monday through Friday from 8 to 5:30 p.m. The preliminary and time trials will be Feb. 3 at 8 p.m. with the six best in each event going to the finals Feb. 5.

Poly JV Grapplers Places Third In Day-Long Tourney

Winning only one first place, Cal Poly jayvee wrestlers finished third in the second annual Junior College Wrestling Tournament with 51 points. San Bernardino JC was first with 94 points followed by Fresno City College with 67.

Darwin McGill, 177-pounder, was Poly's lone winner. He defeated Walt Standrich 9-3 in one of the most exciting matches of the tourney. Don Hagadorn, 123; Norm Geiger, 187; and Wayne Womer, heavy weight, finished with seconds while Frank Garcia, 180; Ben Pas, 157; and Lynn Dyche, 191, ended with thirds.

Other school scoring was: Orange Coast, 24; College of Sequoias, 18; Los Angeles City College, 9; and Hancock and San Mateo with 7 points each.

Gymnast Coaches Look for Strong Showing This Year

Preparing for the fast approaching season, Cal Poly's gymnastics team is working out daily in Crandall gym from 4 to 6 p.m., and according to Charles Plath, it should be an exceptionally strong team. Plath with Dr. Glenn Noble is coaching the team.

The gymnasts will be paced by Herman Farlough, John Alday, and Arty Day. Farlough placed second in the rope climb in both the 1958 CCAA and NCAA meets. Alday and Day won firsts in the CCAA meet on the trampoline and the long horse, respectively.

Other returning lettermen are: Dalton Sherwood, long horse; Kit Hurton, horse and parallel; Allen Pease, rope climb; and John Se-well, all around.

The schedule: UCLA Invitational State School Meet Feb. 14 There San Jose, Stanford Feb. 15 There San Diego, Occidental Mar. 7 Here NCAA Meet (University of California) Mar. 20-21

Local Junior College Offers Adult Classes

Various adult classes will be offered by San Luis Obispo Junior College at the beginning of the semester, Feb. 2. Some are transferable to Cal Poly.

On the cultural side, there are choices in English, science, history, psychology and foreign languages. Courses are also given in business education. Many of these are helping Poly wives train for positions in local businesses.

Technical courses include surveying, welding, boat construction, machine shop and driver training.

Interplanetary Traveler Makes Magic . . .

THEY SAID IT COULDN'T BE DONE . . . but Don Caldwell's rifle flew out of his hands just like that and stayed there until his friend from outer space, Kreton, played by George Greenman, left, decided it should come down. This is only one of many strange goings on when Kreton makes "A Visit to Small Planet," the title of the CU sponsored science fiction comedy which will be presented to Cal Poly theatregoers January 29, 30, and 31. Watching the proceedings in some amazement are, left to right, Nancy Collier (playing Reba Spelding), Claire Hedy (as Ellen Spelding), and Don Gilbert (Conrad Mayberry.) Tickets for the play, which will be shown in the San Luis Obispo high school auditorium, are on sale in the ASB office and outside El Corral for \$7.50 for students and \$1.00 general admission.

(Photo by Keeble)

Volvo, Oldsmobile Win SAE Safety-Economy Run

by Don Roberts

Alan Shadbourn, in a Volvo, drove the SAE Safety-Economy Run 108.2 mile course with a score of 66.91 ton-miles-per-gallon of gasoline to win the European class Saturday while Larry Olson captured the trophy in the American production division with a 60.08 ton-miles record. Shadbourn's Volvo averaged 40.8 actual-miles-per-gallon, while Olson's '52 Oldsmobile averaged 30.3 miles per gallon.

Top actual-miles-per-gallon trophies went to Lane Wilcox and Richard De Bono. Wilcox posted a 39.9 average in his '51 Nash while De Bono recorded a 36.8 average with a '51 Renault.

Other Mobil Safe Driving award winners were Ron Heden and Michel Godfrey, second and third place in the ton-miles competition for American cars. Heden achieved 56.10 ton-miles and 30.6 actual miles in a '56 Olds; Godfrey 55.2 ton-miles and 25.4 actual miles in his '56 Chevrolet.

Scores were based on the actual miles-per-gallon averages of drivers over the course, amended by penalty of one-tenth of a gallon of gasoline for each infraction of a traffic or safety regulation. This figure is multiplied by the weight of the car in tons to compute the final "ton-mile" score.

Larry Ellis, SAE member and Chief Steward of the event, pointed out the course which took participants through Morro Bay, Atascadero, Santa Margarita, Arroyo Grande, Orocopia, Grover City, Pismo Beach and back to the starting point in San Luis Obispo, was planned to give a comprehensive test under varying driving conditions.

"Honors went to the light-footed

safety-conscious drivers," points out Ellis, "This was not a race in any sense, but a test of safety and gasoline economy. Economy is the criterion because we know that the economical driver is also the safe driver."

Members of the San Luis Obispo Kiwanis and a number of the college faculty served as observers. Dean Harold Hayes of the Engineering Division obtained observers for the run.

Trophies and awards were presented at a banquet-luncheon on campus Saturday afternoon. SAE member George Dudley was coordinator of the banquet.

According to Advisory Steward, Richard Seward, of SAE, "The success of the run is indicative of the enthusiasm over an event of this type at Cal Poly. Officials from General Petroleum were pleased with the results of this event, the first of its type to be held by a single college in the southern California sector."

The Cal Poly Library contains approximately 75,000 books, and is open to the general public for use within the library during specified hours.

Class Features Work with Local Youth Groups

Education department students, in the Field Work with Youth Groups Class, are working with children from Cub Scouts and Boy Scouts, Bluebirds and Campfire Girls in the San Luis Obispo area.

Two units of credit are given, and the work is done under the direction of adult leaders, coordinated and supervised by I. A. Willson.

Purpose of the course is to develop skills in group management, and to see children in a play situation, not associated with classroom teaching.

During the quarter, students attend weekly meetings and actually plan, carry out, and evaluate at least two complete activities with the group. This usually consists of a craft activity, and an outing or field trip. In this way, they have the responsibility of leadership of youngsters, involving both routine and creative work.

The following students are taking part in the program: fifth grade Campfire Girls, Alice Cline and Beverly Anay; sixth grade Campfire, Penny Gardner and Susan Rockford; Carol Harris, eighth grade Campfire.

Cub Scouts: Renee Vallon, Carol Herd and Joan Freeman. Troop One Boy Scouts: Jack Cline.

Blue Birds: third grade, Carol Hall; fourth grade, Dianne Nicholson and Betty Moore.

Poly in Class by Itself Says Alpha Zeta Visitor

"Cal Poly seems to be in a class by itself in its teaching techniques," said Dr. Bruce R. Taylor, a visitor of Cal Poly last weekend and one of the three installation officers of the newly organized California Delta of Alpha Zeta chapter.

"I am very much impressed to see so many students at work in their departments, thereby acquiring a greater educational background in their potential field of work," added Dr. Taylor, "This school has more student occupational job opportunities than most institutions."

Dr. Taylor is department head of Animal Sciences division at University of Arizona, Tucson. His main interest is beef cattle nutrition. He graduated from Kansas State College, worked for the American Hereford Association for eight years in publicity and public relations, and taught at Iowa State College previous to his present position at University of Arizona.

University of Arizona has a student body of approximately 10,500. Dr. Taylor commented the Animal Sciences department is making more job opportunities in campus work for students. Within the past 18 months, since he has been on the faculty, the on-campus jobs have increased six or seven times.

Although this was Dr. Taylor's first visit to this campus, he will be here again May 22 and 23 for the Judge's Conference.

Dr. Taylor is High Scribe of the National Alpha Zeta Council. Alpha Zeta is the National Agricultural fraternity. Membership qualifications include scholastic standing, leadership abilities and experience, and character.

Cal Poly is the 51st chapter in Alpha Zeta. This is the largest installation in the fraternity's history, according to Dr. Taylor. Cal Poly's chapter is also possibly the largest of all chapters.

policy can protect himself in the amount of \$100 per month if totally disabled.

Veterans age 40 and under may add the disability clause to their policies without a medical examination, but veterans 41 years and over, a medical examination is required, the cost of which must be borne by the veteran.

A provision of the disability income rider requires that the disability must occur before the insured reaches the age of 60, but is payable for life or until the insured has recovered from his charged for the disability clause illness. An additional premium is charged for the disability clause which is payable along with and at the same time as the basic policy premium. The disability rate varies with the age of the policy holder and with the type of the policy to which it is attached.

The local office of the Veterans' Administration, 864 Santa Rosa Street, San Luis Obispo, is prepared to assist veterans in adding this benefit to their policies. It is also prepared to counsel veterans who wish to have their insurance explained to them in detail.

Young Farmers . . .

The next regular meeting of the Cal Poly Young Farmers will be tomorrow at 7:30 p.m. in Adm. 207.

Poly Royal plans will be discussed and reports will be given on regional and state executive meetings. The state convention, which is to be held Feb. 18 and 19 in Long Beach, will be discussed.

Refreshments will be served and everyone is urged to attend.

Electronic Wives . . .

Tonight there will be a meeting of the Electronic Wives Club at 7:45 in Lib. 118.

A Merle Norman cosmetic demonstration will be given by Niva Bird.

Rocketeers . . .

"The Radiation Belt Around the Earth" will be the topic for Dr. A. F. Rosen, guest speaker of the American Rocket Society.

The meeting will be held tonight at 7:00 in Sol. B-5.

IE Wives . . .

The I.E. Wives Club monthly meeting will be held in Lib. 118 tomorrow at 8 p.m.

New officers for the next term will be elected.

Circle K . . .

Tonight at 7:30 in Adm. 208, Circle K is holding their quarterly "guest night" meeting.

The program for the evening will be a presentation by Cecil "Spud" Evans of colored slides on his recent big game safari in Africa.

Anyone interested in joining Circle K should contact the membership chairman, Dave Bowers, box 672, or No. 6 Lassen.

Hams Meet . . .

The Ham Radio Club will have a meeting today.

It will be held in EE-1 at 7:30 p.m.

Poultry Club . . .

The 27th annual turkey banquet, sponsored by the Poultry Club, will be held Feb. 7, at 6:30 p.m. in the Mouth Cafeteria.

Poultry majors, their guests and alumni are asked to make it a must on their date books. Reports Al Boyce, poultry club reporter.

Aggies Borrow Shorthorn Bull

McArthur Brothers Shorthorn Ranch, McArthur, has loaned Cal Poly a registered Shorthorn bull. Animal Husbandry department head Lyman Bennion announced.

John and Kenneth McArthur, owners of the ranch, are former Cal Poly students. The animal will be at the college until June.

KODAK Pony 135
CAMERA, Model C

Sure, inexpensive way to color slides

Versatile-plus! This fine but low-cost miniature focuses to 2 1/2 feet; has a fast 1/3.5 lens for fine results even on dull days; and shutter speeds to 1/300 for action. Drop-in, no-thread system makes it snap-in-easy to load, and the "red-dot" settings provide box-camera simplicity in color slides.

Cowboy Construction . . .

MORE CONSTRUCTION—The Rodeo Club proves that it's not too early to prepare for Poly Royal. Saturday they raised the roof of the crow's nest at Bud Collett arena and replaced it with a new leakproof type. Gates, fences and holding pens are also getting the new look. The arena surface is also getting the works. Clean-up and construction is under the direction of Dave Oakley, this year's arena director.

Model United Nations: Part III

Oral Testing Session Set For MUN Delegates

Editor's Note: This is the third in a series of four articles on what a Cal Poly delegation will have to know to represent Peru in the Model United Nations convention at USC in April.

by Carol Bucher

Students hoping to become Model United Nations delegates to the convention at the University of Southern California will have an opportunity to qualify at an oral testing session Feb. 12 in Lib. 208 from 7 to 9 p.m. "Anyone, adequately prepared, is eligible to present and display his knowledge of the necessary facts," said Tom Nolan, Social Science instructor in charge of the program. "If no one proves informed enough for delegate status," he continued, "we just won't have a delegation. However five to nine people are allowed for financially."

Objectives and assignments for students aspiring to membership on the delegation from Peru are many. All must demonstrate a knowledge of the organization and function of the United Nations, which may be found in reserve library books, including selections from Foreign Policy of the United States, International Politics, and the United Nations Charter.

Secondly, all competitors must demonstrate knowledge of the social, economic and political problems of Latin America generally and Peru specifically. Parts of Government of Latin America, The United States and South America, and Council on Foreign Relations, are among the mini-

mum requirements.

Lastly, all must know the current problems of Peru related directly or indirectly to its foreign policies. Current periodicals including, Americas, Hispanic American Report, Latin American Report, and the United States Department of State Bulletins, are also suggested reading material.

"Students must demonstrate an ability to evaluate the resolutions introduced in committees in terms of Peruvian national interest and be able to defend the position of Peru with respect to those resolutions. These issues will be made known to all delegates prior to April 22, the Model UN starting date, to give adequate time for preparation," said Nolan.

Students must also show their knowledge and skill in the use of parliamentary procedure as required background for understanding special rules of procedure for the Model United Nations.

CAMPUS INTERVIEWS FOR SENIORS ON JAN. 29 & 30, 1959

The State of California is sending Personnel Representatives to interview Seniors expecting to graduate in 1959.

THE STATE OFFERS CAREERS FOR GRADUATES IN Architecture, Air Conditioning and Refrigeration, Engineering Electrical, Mechanical and Structural Engineering Liberal Arts and Sciences

Get State Employment Literature and sign up for the interview at the Campus Placement Office.

Students Must Sign For Castle Outing

Sign-ups for the Hearst Castle tour sponsored by College Union should be made as soon as possible in the A.S.B. office, advises Staffi Murdock, outings committee chairman. The tour will be made Sunday from 1 p.m. till 6 p.m.

Miss Murdock announced the cost of the tour will be \$2 and free bus transportation will be provided. The Hearst tour will be a finale for College Union week.

The tour is the first such event to be undertaken by the College Union program. The future of such tours will depend on the success of Sunday's outing, announced Miss Murdock.

Renowned for its fabulous art treasures, Hearst Castle is located at San Simeon and was built and maintained by the late California publisher Wm. Randolph Hearst. After Hearst's death the estate was turned over to the State as a public park.

Since its opening last summer Hearst Castle has become a major tourist attraction. It has received nation wide recognition through an article appearing in "Life" last year.

San Jose State won four of 10 individual boxing championships to win the 1958 national collegiate boxing team title.

Q.E.D.

Yes, it's been demonstrated time and time again, that for real refreshment it's Coke every time! Add up that cold crisp taste, that lively lift and you really have a drink worth going after. So whenever the crowd has a multiple thirst, make the high sign of good taste . . . pass around the Coca-Cola! Quod Erat Demonstrandum!

BE REALLY REFRESHED... HAVE A COKE!
